## BY THE YARD

To Our Valued Customer:

Spring is approaching fast! Act now and save throughout the season! Below is our tip fee program rate sheet for 2024. By making an initial payment of \$2,200 or \$800 you will lock these rates in for the entire season. As funds are used, you only need to maintain a positive balance, and we will honor the rates. We encourage you to take advantage of our pre-pay program for lower cubic yard prices on all materials you deposit throughout 2024. Charges are based on the type of yard waste you deposit.

**Annual tip fee payments are non-refundable, but will be rolled over to the following year.**

All material deposited must be separated on your truck according to the three waste streams, and no trash will be accepted. We do not accept concrete or brick. This is a “pay as you go” program not a net terms account, you receive the discount by maintaining a positive balance. Large volume accounts will be prompted for payment when your account dips below \$500; for Small Volume it will be \$200. All volume customers are expected to pay full volume amounts at time of replenishing account, no partial dollars or lesser amounts accepted.

If the account reaches “\$0” balance, pricing will reflect List Price not Volume Pricing.

A \$75.00 per yard upcharge will be applied if materials are not separated.
