To Our Valued Customer:

Spring is approaching fast! Act now and save throughout the season! Below is our tip fee program rate for 2025. By making an initial payment of \$2,500 or \$1,000 you will lock these rates in for the entire season. As funds are used all you need to do is maintain a positive balance and we will honor the rates. We encourage you to take advantage of our pre-pay program for lower cubic yard prices on all materials you deposit throughout 2025. Charges are based on the type of yard waste you deposit. **Annual tip fee payments are non-refundable but will be rolled over to the following year.**

All material deposited must be separated on your truck according to the three waste streams, and no trash will be accepted. We do not accept concrete or brick. This is a “pay as you go” program not a net terms account, you receive the discount by maintaining a positive balance. Large volume accounts will be prompted for payment when your account dips below \$500; for Small Volume it will be \$200. If the account reaches “0” dumping privileges will be suspended and pricing will reflect List Price not volume pricing. A \$75.00 per yard upcharge will be applied if materials are not separated.

To place your pre-season deposit, we strongly encourage you to drop off or mail in your payment in, designating “2025 Tip fee” or please contact the Weston by the Yard team at 508-293-8050 or your sales representative in wholesale at 508-293-8028 with any questions you may have.
